NOTICE OF ALLOWANCE

Status of the Claims

This action is in response to papers filed 13 September 2005 in which claim 1 was amended and claims 4-5 were canceled. All of the amendments have been thoroughly reviewed and entered.

The previous rejections in the Office Action dated 16 February 2005 are withdrawn in view of the amendments and unexpected results discussed in the Declaration submitted 17 August 2005.

Claims 1-3 and 6-15 are in condition for allowance.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims are drawn to method of synthesizing nucleic acids on an array. The inventive element being that during synthesis, the support is held in a vertical position with a vertex pointing downward and rotated a multiple of 90 degrees between each step of nucleotide attachment or binding. As illustrated in Example 1, the rotation significantly decreases synthesis variability across the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-3 and 6-15 are allowed.
